

“Easy and convenient access to medication in a non-judgmental setting is crucial to adherence”

—American Journal on Addictions

Managed Pharmacy Program for Addiction Treatment

Cordant Health Solutions’ managed pharmacy program for medication-assisted treatment (MAT) can help patients adhere to their treatment plan, improve overall health and increase engagement. The program works by delivering addiction treatment medications dispensed by Cordant’s pharmacy to the patient during the time of their treatment visit, or for telemedicine programs, to the patient’s home.

Cordant’s program eliminates many of the barriers to treatment that patients face, including perceived stigma and judgment at retail pharmacies, challenges with transportation, and limited or no availability of medication when needed.

Cordant’s Stigma-Free Managed Pharmacy Program Can Help Your Patients Reclaim Their Lives!

52% improved retention

Patients in Cordant’s program showed significantly higher retention rates, especially in the early part of treatment*

42% reduction in ER visits

Patients in Cordant’s program had fewer drug-related ER visits*

46% fewer positive opiate tests

Patients in Cordant’s program experienced fewer relapse events*

How It Works

What Cordant Pharmacy Patients Are Saying

“

“It has helped keep me from running into people that could affect my sobriety at the pharmacy.”

“I love not having to go to a pharmacy and feeling judged.”

“I enjoy getting it here because it helps me stay focused on recovery!”

“I feel less stressed knowing my medication is waiting on me and that I will have no trouble.”

“It has made getting my treatment and sticking to coming in a lot easier because it's all together in one.”

“I feel like it helps me because I know everyone truly cares and I don't have to get stared at in my other pharmacy.”

“Helps my stress level so I don't have to wait an hour or more at other pharmacies.”
